### PROFILE

Dedicated and driven Computer Engineering student with an unwavering passion for cultivating and mastering technological skills. Equipped with a robust understanding of computer engineering principles, I am eager to further develop and refine both my academic knowledge and practical skills. Seeking an opportunity to leverage my expertise in a dynamic team within the computer engineering field, where I can contribute meaningfully and continue to grow professionally.

### EXPERIENCE

#### iAccerate Sample Assist Internship

2024

Throughout my final year at university, I have been working as part of a team at iAccelerate on a research project focused on migrating systems from Google Firebase to Amazon Web Services (AWS). This task has involved extensive analysis of both platforms' capabilities, evaluating the technical requirements for migration, and developing strategies to ensure a smooth transition.

Our team has also been responsible for identifying potential challenges and creating solutions to mitigate risks during the migration process. This experience has enhanced my skills in cloud computing, project management, and collaborative problem-solving, and has provided me with a deeper understanding of the complexities involved in cloud service migration.

#### Ritchies IGA Liquor Taren Point Assistant Liquor Manager

2021 – Current

I have been a member of the Ritchies team for over 6 years, with my most recent role in the store's liquor department. Operating as a separate entity from the store, this department requires many functions and tasks to operate daily. As the most senior casual member, I undertake a managerial position in the absence of my manager, demanding a range of roles and skills

#### Ritchies IGA Taren Point Service Supervisor / Cigarette Controller

2017 – 2021
